

Blister Packaging

Qualipac Plus is a leading Australian blister packaging company, providing a range of blister packaging products and services to businesses across Australia. Operating since 1992, Qualipac Plus provides a professional, quality product, produced to your timeline, backed up by excellent customer service and quality control.

We have specialised equipment and trained operators to ensure your blister packaging is of the highest quality. Some of the equipment we operate includes:

- Thermal forming vacuum machine
- 70 tonne press
- 20 tonne press
- Blister folding machine
- Blister sealing machine
- Blister gluing machine

Our blister packaging company operates from a site in the southern suburb of Bibra Lake in Western Australia. We can, however, provide our blister packaging services to companies all around Australia. We have existing arrangements with transport companies for the provision of freight services and our staff are experienced in working with organisations outside of Western Australia. Some of our largest customers operate in the eastern states.

What is Blister Packaging?

Blister packaging is a cost effective way to display your retail products. Most manufacturers prefer blister packaging because it offers a tamper proof package that can be displayed as a hang-sell item. Blister packaging also ensures your products retain a neat appearance when they are on display.

Blister packaging is widely used for any hang sell product that is found in major stores and outlets and includes such items as:

- Refills
- Stationary
- Electrical products
- Computer accessories
- Craft supplies
- Cosmetics
- Parts and accessories

How we can help your business

Qualipac Plus can help increase your business and markets through the following blister packaging products:

- Folded blister – holds your product and a printed backing card
- Sealed blister – your product is heat sealed onto a backing card

Our experienced staff can help you not only in the design and manufacture of your blister packaging, but also in the design and printing of your backing card.

Our print broking division offers a commercial design and printing service, which will ensure your backing cards are designed to effectively market your product.

Total Packaging Solutions

Our experience in the packaging industry extends to other packaging services including heat sealing and shrink wrapping. If you are looking for a complete solution to your packaging needs, however big or small, make Qualipac Plus your first port of call.

Print Broking

Qualipac Plus also offers a commercial design and printing service to meet all of your business printing needs. Our range includes:

- Business cards
- Letterheads and envelopes
- With compliment slips
- Flyers and brochures of all sizes
- Backing cards for blister packaging
- Newsletters

We are able to offer your business very competitive prices by working with a range of printing companies to secure you the best price, while ensuring a quality product.
